ACCESSION OF CHINESE TAIPEI

Information Concerning Domestic Support and Export Subsidies

The Representation of the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu has submitted the following information concerning commitments on domestic support and export subsidies.

ANNEX V

This Schedule is authentic only in the English language.

PART IV: AGRICULTURAL PRODUCTS: COMMITMENTS LIMITING SUBSIDIZATION
(Article 3 of the Agreement on Agriculture)

SECTION I – DOMESTIC SUPPORT: Total AMS Commitment

(Million NT\$)

BASE TOTAL AMS	Annual Final Bound Commitment Levels						Relevant support tables and document reference
	1995	1996	1997	1998	1999	2000	
	1	2					
17,730.85	17,139.82	16,548.79	15,957.76	15,366.74	14,775.71	14,184.68	See supporting tables 1, 4, 5, 6, 7, 9.

DOMESTIC SUPPORT: The Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu**REPORTING PERIOD: Fiscal Year 1990/91-92/93¹***Measures exempt from the reduction commitment - "Green Box"*

Measure type	Name and description of measure with reference to criteria in Annex 2	Monetary value of measure in year in question (million NT\$)				Data sources
		1990	1991	1990-02 avg.		
1	2	3	4	5	6	7
1. General services	Research: General research, research in relation to environment programmes and product specific research programmes. (Annex 2, paragraph 2(a))	1,387.27	945.61	1,160.93	1,164.60	Documents of budget
	Pest and disease prevention: General and product-specific pest and disease control measures. (Annex 2, paragraph 2(b))	600.52	708.51	674.44	661.16	Documents of budget
	Training services: Education and training. (Annex 2, paragraph 2(c))	93.23	196.76	313.28	201.09	Documents of budget
	Extension and advisory services: programmes for practical application of new technologies, technology improvement of agricultural production, compilation and provision of statistical data and information, strengthening of management of agricultural organizations. (Annex 2, paragraph 2(d))	1,794.49	1,509.82	1,238.64	1,514.32	Documents of budget
	Inspection services: The inspection and control of veterinary medicine, feed, food, pesticide residue, water quality, and grading and the implementation of Chinese Taipei's Agricultural Standard system. (Annex 2, paragraph 2(e))	71.68	186.87	157.26	138.60	Documents of budget
	Marketing and promotion services: programmes for the improvement of the marketing, processing and consumption of food. (Annex 2, paragraph 2(f))	1,458.98	2,492.94	1,534.59	1,828.84	Documents of budget
	Infrastructural services: Planning and construction of irrigation/drainage facilities and rural roads, land consolidation for agricultural sector and rural community. (Annex 2, paragraph 2(g))	2,581.96	3,553.86	4,640.13	3,591.98	Documents of budget
2. Payments for relief from natural disasters	Aid for natural disaster ² : government payments for relief of damaged farms by natural disasters. (Annex 2, paragraph 8)	-	87.39	116.38	67.92	Agricultural economics division, TPDFAF
	Interest subsidy: Special loans granted to farmers for the relief of damaged farms due to natural disasters. (Annex 2, paragraph 8)	176.00	124.00	192.00	164.00	Farmers' Service Dept., COA
	(a) Loan types, borrowers, purposes, credit lines, loan interest, loan maturity, repayments, and lending institutions. (Refer to loan type 1 in Attachment 1).					
	(b) Fund is sourced from the Agricultural Development Fund.					

1	2	3	4	5	6	7
3. Structural adjustment provided through resource retirement programmes	Land retirement programmes: The conversion of farm land to forestry use. (Annex 2, paragraph 10)	0.41	13.18	329.22	114.27	Documents of budget
4. Environmental programmes	Pollution reduction: provision of low interest loans to hog farmers for the purchase of pollution prevention facilities. (Refer to loan type 7 in Attachment 1) (Annex 2, paragraph 12)	15.86	39.30	34.85	30.00	Animal industry Department, COA
	Programmes for preventing pollution, managing agricultural waste and monitoring on the pollution of the water and soil. (Annex 2, paragraph 12)	212.02	67.68	925.87	401.86	Documents of budget
	Interest subsidy: Loan granted to farmers for the use of water and soil conservation. (Refer to loan type 2 in Attachment 1) (Annex 2, paragraph 12)	14.00	10.00	19.00	14.33	Farmers' Service Dept., COA
	Land conservation subsidy ² : payments for the maintenance of ricefields in environmentally good condition by growing green manure crops or setting-aside. (Annex 2, paragraph 12)	1,816.97	1,801.18	1,278.34	1,632.16	Food & Agriculture Dept., COA
5. Regional assistance plan	Programmes for disadvantaged farms: Integrated agricultural construction and environmental improvement programmes for disadvantaged farms. (Annex 2, paragraph 13)	299.66	510.61	486.43	432.23	Documents of budget

Footnotes:

¹Fiscal year begins on 1 July and ends on 30 June of the subsequent year.

²Data for aid for natural disaster and land conservation subsidy are outlays for calendar year.

DOMESTIC SUPPORT: The Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsu**REPORTING PERIOD: Calendar Year 1990-92 and Fiscal Year 1990/91-92/93***Calculation of the Current Total Aggregate Measurement of Support*

Total: Current total AMS							18,520.96	17,123.67	17,547.91	17,730.85

Footnote:

- (1) AMS is not subject to reduction or inclusion in the current AMS because the calculated AMS is less than 5 per cent of value of production (*de minimis* exclusion).
- (2) Value of production (excluding forage crops, which is estimated as described in footnote (3)) is reported in "Taiwan Agricultural Yearbook" published by Department of Agriculture and Forestry of the Taiwan Provincial Government.
- (3) Value of production of forage crops is calculated on the basis of the planted acreage of forage crops times the yield per ha. of hay (15,000kg) times the estimated averaged unit price (NT\$4.5/kg).
- (4) Value of production of other crops is calculated by deducting the sum value of the above crops (including rice, soybean, feed corn, sorghum, wheat, peanuts, sugar, vegetables (including food corn), tobacco leaves, wine grapes, fruit (excluding wine grapes), ornamental plants, forage crops) from the total value of crops (including forage crops).
Other crops include millet, common beans, adzuki beans, mung beans, sweet potatoes, cassava, potatoes, tea, sugar-cane (fresh), sesame, rapeseeds, cotton, tachia rush, triangle rush, perfume plants, sisal, sunflowers, mildew, sericulture and other miscellaneous crops.

Footnotes:

- (1) Price support level for rice is calculated on the basis of government planned purchase.
- (2) Price support level for rice is calculated on the basis of government supplementary purchase.
- (3) "Applied administered price of rice" is sourced from "Taiwan Food Statistics Book" published by Taiwan Food Bureau (TFB).
"External reference price" is based on CIF price of rice imported by Hong Kong in 1990-2; which serves as the arithmetic average of the price in year 1990-2.
"Eligible production of rice" is sourced from "Taiwan Food Statistics Book" published by Taiwan Food Bureau (TFB).
- (4) "Applied administered price of soybean, corn, sorghum" is sourced from "Taiwan Food Statistics Book" published by TFB.
"External reference price" is based on CIF imported price of soybean, corn, sorghum in 1990-2, sourced from
"Monthly Statistics of Imports" Directorate General of Customs, Ministry of Finance.
"Eligible production of soybean, corn, sorghum" is sourced from "Taiwan Food Statistics Book" published by TFB.
- (5) "Applied administered price of tobacco leaves" the price is based on the weighted average of the prices for the purchase of different grades of locally produced tobacco leaves. Sourced from Taiwan Tobacco & Wine Statistical Yearbook" published by Taiwan Tobacco & Wine Monopoly Bureau (TTWMB).
"External reference price of tobacco leaves" is based on CIF price of tobacco leaves imported from Thailand with the equivalent quality of Taiwan's; sourced from TTWMB.
"Eligible production of tobacco leaves" is sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by TTWMB.
- (6) "Applied administered price of wine grapes" is based on the weighted average of the prices for the purchase of different grades of locally produced grapes. Sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by TTWMB.
"External reference price of wine grapes" is determined by using the price of wine grapes in the State of California times a coefficient of 0.75 (to reflect the downwards quality adjustment) plus freight and insurance (at 10 per cent of the price of California wine grapes).
"Eligible production of wine grapes" sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by TTWMB.
- (7) "Applied administered price of wheat" is based on TTWMB contracts signed with farmers for purchase at guaranteed price.
"External reference price of wheat" is based on CIF price of wheat, sourced from "Monthly Statistics of Imports" published by the Directorate General of Customs, Ministry of Finance.
"Eligible production of wheat" is sourced from "Taiwan Tobacco & Wine Statistical Yearbook" published by TTWMB.
- (8) "Applied administered price of sugar" and "Eligible production of sugar" are sourced from Taiwan Sugar Corporation.
"External reference price of sugar" is based on C & F imported price of sugar, Taiwan Sugar Corporation.
- (9) Price support level for sugar is calculated on the basis of domestic sales.
- (10) Price support level for sugar is calculated on the basis of export sales.
- (11) Refer to Attachment 2 for more details on the measures and calculation listed in this footnote.

Footnotes:

- (1) Under the Program of Rice Production and Ricefields Diversion, for rice farmers converting rice production to any other non-rice crops, there is a diversion payment of NT\$16,500 per ha. made for the production of soybean, corn, sorghum, sugar cane, tobacco, vegetables, ornamental plants, and a diversion payment of NT\$24,750 per ha. made for the production of fruits, forage crops, peanuts, sugar and other crops in year 1990-92.
- (2) In addition to the diversion payment, for each of the hectare in adjoining farms with total area of over 30 hectares, there is a bonus payment of NT\$4,000 per ha. for the conversion of rice production to any other non-rice crops mentioned in the preceding items in year 1990-92.
- (3) See Annex to Supporting Table DS:6 for the deficiency payment of each individual vegetable. (Refer to Attachment 4 for details.)
- (4) Historical data are not available for a breakdown of the diversion and bonus payments of each individual crop in the category of vegetables, fruit (excluding wine grapes), ornamental plants and other crops, therefore, only the general category payments are shown.

⁽¹⁾Due to the lack of data on the breakdown of different types of loans, item (5) of the special loans on providing assistance to fishermen on the production of aquaculture, which should have been exempted from reduction was included.

ATTACHMENT 1

Loan type 1		Loan for relief from natural disasters
Qualified borrower	Members of Farmers' Association or Fishermen's Association within the natural disaster areas.	
Loan purpose	Agricultural rehabilitation.	
Loan amount	Determined on the basis of actual needs, but not exceeding the ceiling of NT\$3 million.	
Loan interest	Floating rate (current rate is 4.5%).	
Loan maturity	Determined on the basis of actual needs.	
Repayment	Semi-annual payment of interest and repayment of principal.	
Lending institution	Farmers' Association, Farmers' Bank, Land Bank, Taiwan Provincial Cooperative Bank	
Loan type 2		Loan for the use of water and soil conservation
Qualified borrower	<ol style="list-style-type: none"> 1. Farmers actually engaged in activities of water and soil conservation 2. Farmers who are authorized and entitled to use the slope land. 3. Farmers are required to provide a comprehensive conservation programme on the use of the fund. 	
Loan purpose	The programme is to be reviewed and approved by the Provincial Soil and Water Conservation Bureau or the designated local government authority.	
Loan amount	Conservation of water and soil.	
Loan interest	Maximum of NT\$4 million for each farmer (excluding infrastructure facilities). For infrastructure facilities, not to exceed the actual expenditure used.	
Loan maturity	Floating rate (current rate is 4.5%).	
Repayment	Maximum is ten years.	
	For infrastructure facilities loan, annual payment of interest and repayment of principal; first payment of loan is to be made one year from the time of borrowing, and to be fully repaid in ten instalments.	
	For capital investment, semi-annual payment of interest and repayment of principal; to be fully repaid in 11 instalments; first repayment of loan is to be made five years from the time of the borrowing.	
Lending institution	Farmers' Association, Land Bank	
Loan type 3		Agriculture land loan
Qualified borrower	Farmers	
Loan purpose	To purchase or to inherit farmland in order to increase operation scale of the family farms.	
Loan amount	Maximum of NT\$6 million, determined on the basis of publicly announced value of the farmland but not exceeding the actual transaction price or the cash compensation associated with inheritance.	
Loan interest	Floating rate (current rate is 4.5%).	
Loan maturity	Maximum is 15 years.	
Repayment	First year is the grace period, semi-annual repayment thereafter; interest payment semi-annually.	
Lending institution	Farmers' Association, Farmers' Bank, Land Bank	
Loan type 4		Agricultural Machinery Loans
Qualified borrower	<ol style="list-style-type: none"> 1. Individuals or private organizations actually engaged in agriculture or aquaculture activities 2. Farmers engaged in the leasing of agricultural machinery, either as operators or non-operators of the machinery. 	
Loan purpose	<ol style="list-style-type: none"> 1. Purchase of approved brand new automated agricultural machinery (including ancillary equipment). 2. Investment in the conversion or re-building of conventional equipment to automated equipment. 	
Loan amount	Determined on the basis of actual need, but not exceeding the ceiling set by the COA, when applicable.	
Loan interest	Floating rate (current rate is 5.5%).	
Loan maturity	<ol style="list-style-type: none"> 1. Maximum is seven years. 2. Maximum is four years if leasing of machinery is the farmer's main source of income. 	
Repayment	Semi-annual payment of interest and repayment of principal.	
Lending Institution	Farmers' Association, Farmers' Bank, Land Bank, Taiwan Provincial Cooperative Bank	

Loan type 5		Loans for assisting joint, entrusted and cooperative farm operations.
Qualified borrower	1.	Family farms where planting areas entrusted by others to farm exceed three hectares.
	2.	Family farms adopting joint farm operations supervised by the government or the Taiwan Sugar Corporation.
	3.	Cooperative farms.
Loan purpose		Funds required to expand the scale of operation of joint, entrusted or cooperative farms.
Loan amount		Total loan amount is not to exceed:
	(a)	NT\$4 million, in the case where the entrusted planting area is less than ten hectares, or NT\$ 6 million in the case where the entrusted planting area is more than ten hectares.
	(b)	NT\$2 million for each of the jointly operated family farm and NT\$9 million for each organization.
	(c)	NT\$9 million for each cooperative farm.
Loan interest		Floating rate (current rate is 5.5%).
Loan maturity	1.	Maximum is three years for working capital loan.
	2.	Maximum is ten years for capital expenditure loan.
Repayment		Semi-annual payment of interest and repayment of principal; grace period can be extended to a maximum of three years.
Lending institution		Farmers' Association, Farmers' Bank
Loan type 6		Special loans for young farmers.
Qualified borrower		Young farmers aged between 18 and 40 who have graduated from agricultural or aquacultural professional schools, those who have received agricultural training or given awards of distinction by the government.
Loan purpose		Capital required for agricultural production, transportation costs for purposes of distribution, processing and other activities related to agricultural services.
Loan amount	1.	Maximum of NT\$6 million per person.
	2.	Maximum of NT\$3 million for first-time borrowers and for the first year of borrowing.
Loan interest		Floating rate (current rate is 5.5%).
Loan maturity	1.	Maximum is three years for working capital loan.
	2.	Maximum is ten years for capital expenditure loan.
Repayment		Semi-annual payment of interest and repayment of principal. Grace period for capital expenditure loan can be extended to a maximum of three years.
Lending institution		Farmers' Association, Farmers' Bank
Loan type 7		Loans for the purchase of equipment used in the prevention of pollution by hog farms.
Qualified borrower		Hog farms with size of less than 5,000 pigs which need to install or improve pollution prevention equipment.
Loan purpose		The installation of three-stage waste water disposal equipment or the reconstruction of hog farms without facilities for the disposal of waste water.
Loan amount		Up to 90% of the amount required by farmers, but not to exceed NT\$1,000 per pig.
Loan interest		Floating rate (current rate is 4.5%).
Loan maturity		Maximum of eight years.
Repayment		Semi-annual payment of interest; first repayment of loans to be made 3.5 years from the time of borrowing, and to be fully repaid in ten instalments.
Lending institution		Farmers' Association, Farmers' Bank, Land Bank, Taiwan Provincial Cooperative Bank

ATTACHMENT 2

Description of basic products	Measure type(s)	Sources and comments
1	2	8
Rice	Guaranteed purchases	<p>1. There are two types of rice purchase, planned or supplementary purchase. The purchase is made twice in a year divided into two crops. The purchase and quantity are as follows:</p> <p>(1) Planned Purchase The purchased quantity: 1,600kg per ha. for the first crop; 1,200 kg. per ha. for the second crop. The purchased price: NT\$19/kg. for Japonica rice; NT\$18 /kg. for Indica rice.</p> <p>(2) Supplementary Purchase The purchased quantity: 1,200/kg. per ha. for the first crop; 800 kg. per ha. for the second crop. The purchased price: NT\$16.5/kg. for Japonica rice; NT\$15.5/kg. for Indica rice.</p> <p>2. The market price support is calculated on the basis of the difference between the guaranteed purchase price and the imported price for husk rice (import rice is determined by using Hong Kong's rice import price as reference; import data sourced from "Hong Kong Trade Statistics," exchange rate data sourced from "Hong Kong Monthly Digest of Statistics") times the purchased quantity. The price for imported husk rice is converted to the price for milled rice, using the conversion ratio between domestic husk rice and milled rice. (Refer to Attachment 3)</p>
Soybeans	Guaranteed purchase diversion payment bonus payment	<p>1. The purchase is divided into three crops per year at NT\$25/kg.; 2.5 M.T. per ha. Moreover, to encourage farmers to convert from rice to soybeans production, there is a diversion payment of NT\$16,500 per ha. In the case of group conversion, there is a bonus payment of NT\$4,000 per ha made since the first crop of 1990.</p> <p>2. The market price support is calculated on the basis of the difference between the guaranteed purchase price and imported price ("C.I.F. price" data sourced from "Monthly Statistic of Imports," published by the Directorate General of Customs, Ministry of Finance) times the guaranteed purchase quantity.</p>
Corn	Guaranteed purchase diversion payment bonus payment	<p>1. The purchase is divided into three crops in a year at NT\$15/kg.; 5 M.T. per ha. Moreover, to encourage farmers to convert from rice to maize production, there is a diversion payment of NT\$16,500 per ha. In the case of group conversion, there is a bonus payment of NT\$4,000 per ha made since the first crop of 1990.</p> <p>2. The market price support is calculated on the basis of the difference between the guaranteed purchase price and imported price ("C.I.F. price" date sourced from "Monthly Statistic of Imports," published by Directorate General of Customs, Ministry of Finance) times the guaranteed purchase quantity.</p>

1	2	8
Sorghum	Guaranteed purchase diversion payment bonus payment	<p>1. The purchase is divided into two crops in a year at NT\$14/kg; 5 M.T. per ha. Moreover, to encourage farmers to convert from rice to sorghum production, there is a diversion payment of NT\$16,500 per ha. In the case of group conversion, there is a bonus payment of NT\$4,000 per ha made since the first crop of 1990.</p> <p>2. The market price support is calculated on the basis of the difference between the guaranteed purchase price and imported price ("C.I.F. price" data are sourced from "Monthly Statistic of Imports," published by Directorate General of Customs Ministry of Finance) times the guaranteed purchase quantity.</p>
Vegetables	Deficiency payment	The Department of Agriculture and Forestry of the Taiwan Provincial Government has implemented a plan since 1976 to provide subsidy for summer vegetables in the form of contract guaranteed price. A "Summer Vegetables Guaranteed Price Fund" was established in 1979 to provide subsidy for price difference. The implementation period is from June 1 to October 31 each year. The guaranteed price is determined on the basis of 90% of the monthly weighted average price of Taipei Agricultural Products Marketing Corporation in the most recent 5 years, but in no event such guaranteed price would exceed the guaranteed price for the preceding year by more than NT\$2.
Wine grapes	Contract guaranteed purchase	<p>1. The TTWMB signs contracts with farmers for the purchase of their products. The farmers' associations are responsible for the handling of the purchase.</p> <p>2. Method for the calculation of internal support for contract purchase of wine grapes: (contract price - external reference price) x contract purchase quantity. Contract price is based on the weighted average of the prices paid for the purchase of different grades of locally produced grapes. External reference price is determined by using prices of wine grapes in the State of California times 0.75 (quality adjustment)* plus freight and insurance (at 10% of the price of Californian wine grapes). *The coefficient of 0.75 is the quality adjustment coefficient calculated according to the difference between US grape sugar level standard of 21 and Taiwan's wine grape sugar level standard of 15 and is sourced from "Final Grape Crush Report 1992 Crop." Data source for price of Californian wine grapes: Wines & Vines, July 1992 Data source for contract purchase quantity: TTWMB</p>
Tobacco leaves	Contract guaranteed purchase	<p>1. The TTWMB signs contracts with farmers for the purchase of their products at guaranteed price.</p> <p>2. Method for the calculation of internal support for contract purchase of tobacco leaves: (contract price - external reference price) x contract purchase quantity Contract price is based on the weighted average of the prices paid for the purchase of different grades of locally produced tobacco leaves. Data Source for contract price and external reference price: TTWMB Data source for contract purchase quantity: TTWMB</p>
Wheat	Contract guaranteed purchase	<p>1. The TTWMB signs contracts with farmers for the purchase of their products at guaranteed price.</p> <p>2. method for the calculation of internal support for contract purchase of wheat: (contract price - imported price) x contract purchase quantity Imported price is based on C.I.F. price data sourced from "Monthly Statistic of Imports," published by Directorate General of Customs, Ministry of Finance.</p>

1	2	8
Sugar	Contract guaranteed purchase	<p>1. Taiwan Sugar Corporation contracts with farmers according to the Rules Governing the Contract Sugar Business of Taiwan Province on the purchase of sugar cane and share the prices of sugar made thereof with farmers. Sugar has two prices, one for export and the other for domestic sale. Income of sugar cane farmers' are of the following two types:</p> <p>(1) Domestic sales, if the price is higher than the prepaid contract price, the whole of the domestic sale price goes to the farmers; if the domestic sale price is lower than the prepaid price, the farmers retain the prepaid price</p> <p>(2) Export sales, if the export sale price is higher than the export guaranteed price, the whole of the export price goes to the farmers; if the export price is lower than the export guaranteed price, the farmers will get the export guaranteed price.</p> <p>2. Formula for the calculation of sugar internal support:</p> <p>(1) Domestic sales: (contract prepaid price - external price) x domestic sale volume</p> <p>(2) Export sales: (export guaranteed price - external price) x export volume</p> <p>(3) External price: C & F. price of import</p>

Summary of Contracting Guaranteed Price Marketing Plan for Summer Season Vegetables

A. BACKGROUND

In order to fully supply the vegetables to the domestic markets during the summer (Typhoon) seasons, the big cities' wholesale market entity tries to promote vegetable production and orderly marketing scheme. Since 1976 the Department of Agriculture and Forestry of Taiwan Provincial Government (TPDAF) has implemented the Contracting Guaranteed Price Marketing Plan for Summer Vegetables, under which the wholesale markets of populous cities contract with farmers' organizations to set production targets and to ensure minimum market prices in order to supply the insufficient summer vegetables. The plan is initially implemented by the Taipei Fruit and Vegetable Wholesale Market, and later adopted by six other wholesale markets in Taiwan Province. Farmers are voluntary to join this programme.

B. SOURCE OF FUNDS FOR PRICE GUARANTEE

The Fund for Summer Vegetable Price Guarantee was established in 1979, and is governed by the Committee of the Management and Use of the Summer Vegetable Price Guarantee Fund, hereinafter referred to as the "Committee". The contributors to the Fund are Council of Agriculture, TPDAF, Market Administrations in Taipei City and Kaohsiung City respectively, Taiwan Provincial Farmers' Association, Taiwan Provincial Agricultural Federated Cooperative, Taiwan Provincial Fruits and Vegetables Marketing Cooperative, Taipei and Kaohsiung Agricultural Products Marketing Corporation. The representative of each contributor organizes the Committee.

C. IMPLEMENTATION PERIOD

From June 1 to October 31 each year.

D. CONDITIONS FOR FARMERS' ORGANIZATIONS PARTICIPATING IN THE PLAN

- (a) Those with sound organization, good records in joint marketing, and the variety and quality of their products meet markets' demand;
- (b) helping the grading and packaging of products for purposes of selling at reasonable prices; and,
- (c) having been able to actually supply more than 50 per cent of the season's target supply quantity allocated to them or their monthly supplies meet 60 per cent of the target quantity at least for three months each year.

E. CRITERIA FOR SELECTION OF CONTRACT VEGETABLE AND GUARANTEED PRICE

- (a) Agricultural Products Marketing Corporation in the same month of the most recent five years, but in any case would not exceed the guaranteed price set for the preceding year by more than two dollars;
- (b) the products selected for including in the Plan are suggested by TPDAF to the Committee for approval.

F. CONTRACTED SUPPLY TARGET

1. The supply target is suggested by TPDAF to the Committee for approval.
2. Each contracting fruit and vegetable wholesale market would determine the monthly requirement of various vegetable varieties and quantities according to the target set up by the Committee.

G. PRICE DIFFERENCE SUBSIDY

Each fruit and vegetable wholesale market will calculate the averaged price of each product which is shipped through the joint marketing on a weekly basis. If the averaged price is lower than the guaranteed price set up for the relevant month, the price difference will be subsidized according to the following formula; on the other hand, if the averaged price is higher, no subsidy will be granted; provided, however, the subsidy amount shall not exceed 50 per cent of the guaranteed price:

- (a) The price difference would be subsidized by 100 per cent and the contracted quantity would be eligible for such subsidy, if the actual supply quantity is located at between 100 per cent and 120 per cent of the contracted quantity;
- (b) the price difference would be subsidized by 100 per cent and the actual supply quantity would be eligible for such subsidy, if the actual supply quantity is located at between 80 per cent and 100 per cent of the contracted quantity;
- (c) the price difference would be subsidized by 90 per cent and the actual supply quantity would be eligible for such subsidy, if the actual supply quantity is located at between 70 per cent and 80 per cent of the contracted quantity;
- (d) the price difference would be subsidized by 80 per cent and the actual supply quantity would be eligible for such subsidy, if the actual supply quantity is located at between 60 per cent and 70 per cent of the contracted quantity;
- (e) the price difference would be subsidized by 60 per cent and the contracted quantity would be eligible for such subsidy, if the actual supply quantity is located at between 120 per cent and 150 per cent of the contracted quantity.
