ACCESSION OF CHINESE TAIPEI

Communication from Chinese Taipei

The following communication has been received from the Representation of the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu regarding the proposed tariff rate quota regime, the proposed rice quota regime and the special safeguard applied by Chinese Taipei.

Proposed Tariff Rate Quota (TRQ) Regime
in the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu

A. TARIFF QUOTA ADMINISTRATION

1. TERMS OF TRADE

Tariff Rate Quota (TRQ) allocation certificates will serve as automatic import licences, in compliance with the Agreement on Import Licensing Procedures. All commercial terms of trade, including product specifications, origin, pricing, packaging, etc. will be at the sole determination of the parties engaged in the transaction. Partial shipments against a single allocation will be permitted. Traders may import any product or mixture of products subject to the same TRQ as noted in the schedule below. All products imported under the TRQ will be permitted to be distributed freely within Chinese Taipei without further trade-based restrictions. Allocation certificates will be freely transferable and tradeable, and certificate holders may have certificates reissued to combine or divide allocations.

2. APPLICATION

All applications for allocation of TRQ quantities will be submitted to the Ministry of Finance (MOF). Specific conditions for applying for a TRQ allocation will be published in the official journal sixty days in advance of the start of the application period. The application period for initial allocations shall be closed by 30 November of the previous year, unless the timing of accession necessitates a change in schedule for the first year. The application period for reallocations shall be closed by 1 September. MOF will grant allocations and publish and notify the names of recipients and allocations within two weeks of the close of the application period for the purpose of transfer.

3. ASSOCIATED FEES

Any and all fees, charges, deposits, duties, etc. associated with the allocation process will be made explicit in the advance public notification process, and with the exception of ordinary customs duties and / or other charges as noted in the attached schedule, will be commensurate with the cost of the services rendered. No special performance or bid bond requirements will be instituted.

4. CONSULTATION MECHANISM

With a view to maintaining a transparent and open TRQ administration system, upon request from any WTO Member, Chinese Taipei will consult with the Member on administration of the minimum access quotas or TRQ to ensure an equitable distribution of allocations and complete quota utilisation.

5. ALLOCATION

SYSTEM 1: For items footnoted 1/ (chicken, offal, oriental pear, banana, pork)

Initial distribution of allocations For the first two years initial allocation certificates will be issued on a first-come, first served basis. Allocations will be established for commercially viable shipping quantities, but a ceiling of no more than 20 per cent of the total in-quota quantity may be established in advance and published as part of the allocation notification procedures. Allocation certificates will be valid for product arriving between 1 January and 1 September. The date of arrival shall be defined in accordance with Article 5 of the implementing regulations of the Customs Law of Chinese Taipei as currently in place. Upon request and proof of signed contract before 1 September, MOF will

automatically extend the validity date of the certificate to cover products arriving on or before 31 December.

Reallocation of unused allocations In any year, if the holder of a quota allocation certificate has not contracted for import of the holder's total allocation by 1 September, the unused portion of the allocation will be reallocated on a first come, first served basis unless otherwise noted in the schedule. The date of re-issue shall be no later than 15 September. The re-issued allocation certificates will be valid for products arriving on or before 31 December.

Distribution of allocations after the first two years In each year after the first two years in which allocations are made under a TRQ, applicants for an allocation of the quota will receive an allocation at least as large as the average of the amount actually imported by the applicant in the prior two years. Any remaining quota amounts or increases in the quota amount will be allocated on a first come, first served basis.

SYSTEM 2: For items footnoted 2/ (red beans, milk, peanuts)

Allocations will be made in a transparent, equitable and non-discriminatory manner.

Initial distribution of allocations Allocation will be established annually for commercially viable shipping quantities, but a ceiling on the size of any given allocation may be established in advance and published as part of the allocation notification procedures. Allocation certificates will be valid for imports arriving between 1 January and 1 September. Upon request and proof of signed contract, MOF will automatically extend the validity of the certificate to cover product arriving on or before 31 December.

Reallocation of unused allocations In any year, if the holder of a quota allocation has not contracted for import of the holder's total allocation by 1 September, the unused portion of the allocation will be reallocated. The date of re-issue shall be no later than 15 September. The re-issued allocations will be valid for products shipped by 31 December.

SYSTEM 3: For items footnoted 3/.

Allocations will be made in a transparent, equitable and non-discriminatory manner.

B. PRODUCTS SUBJECT TO TARIFF RATE QUOTAS

Description of Product	Tariff Item Numbers	Other Terms and Conditions
Pork belly		1
Pork belly (including spare ribs), whether or not cut		
--fresh or chilled		
----boneless	02031910A	
----with bone in	02031990A	
--frozen		
----boneless	02032910A	
----with bone in	02032990A	
Chicken		1
Meat of chicken (including capon)		
--not cut in pieces		

Description of Product	Tariff Item Numbers	Other Terms and Conditions
----fresh or chilled	02071010	
----frozen	02072100	
--cut in pieces

Brisling or other sprats, prepared or preserved	16041320	

Note 1: Tariff quotas will be distributed under System 1 in accordance with the Tariff Quota Administration.

Note 2: Tariff quotas will be distributed under System 2 in accordance with the Tariff Quota Administration.

Note 3: Tariff quotas will be distributed under System 3 in accordance with the Tariff Quota Administration.

Proposed Rice Quota Regime
in the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu

A. RICE QUOTA ADMINISTRATION

Chinese Taipei will ensure that rice exported practices from central stocks will no longer be prohibited from entering domestic marketing channels for industrial and/ or food use.

Imports of rice for re-export will not count against imports under the quota.

Chinese Taipei will lift its ban on imported rice upon accession to the WTO, and establish a quota equal to access in the current year of the Japan schedule, based on Annex 5, calculated on a brown rice basis. This quota will be increased in equal annual increments, growing to 144,720 metric tons in the year 2000. (Note: If Chinese Taipei should accede to the WTO in 2000, the size of the quota in the first year of access will be 144,720 metric tons.) Any portion of the quota for private trade which is not filled by 31 December will be imported by Chinese Taipei central authorities by 31 March of the subsequent year.

Continuation of the quota beyond 2000, or conversion to a tariff-rate quota, will be subject to the provisions of Annex 5 of the Agreement on Agriculture, in particular paragraphs 3 and 4 thereof. Future quota growth shall be consistent with commitments undertaken by WTO Members with respect to Article 20 of the Agreement on Agriculture.

1. CENTRALIZED IMPORTS

Specification of Imported Rice: Rice imported by the central authorities will be tendered to meet internationally recognized standards for trade in high quality rice. Chinese Taipei will accept Federal Grain Inspection Service certification for rice exported from the United States.

Disposal of Imported Rice: Imported rice will be accorded no less favorable treatment than rice produced in Chinese Taipei. Imported rice will have full access to normal marketing channels, wholesalers, distributors, and end users. It will be priced at a level which ensures that it enters the domestic market at prices competitive with rice produced in Chinese Taipei. Imported rice will be marketed in a timely fashion so that its quality for table use is not adversely affected by storage time. Imported rice will not be exported as food aid, nor used for livestock feed.

Duties and mark-up: The in-quota duty shall be 0 per cent (zero) for rice in HS chapter 10. The sum of the other fees, charges, and mark-ups on any individual importation and resale shall not exceed NT\$23.26/kg for rice and NT\$25.59/kg for rice products. If the product does not move onto the domestic market at any given price, Chinese Taipei will reannounce the distribution within two weeks, reducing the price by NT\$3/kg or greater to ensure that it is not priced above market clearing levels. The process will be repeated if necessary to move the rice out of central stocks.

2. PRIVATE SECTOR TRADE

Direct Private Sector Trade: Chinese Taipei's quota system for private rice trade will be conducted through direct private-sector importation. The quota system will be operated with the objective of ensuring the quota fills with a minimal level of market distortion and that the imported rice enters Chinese Taipei's domestic wholesale and retail markets on conditions no less favorable than exist for rice produced in Chinese Taipei. Chinese Taipei will increase the market access quota allocated to the private trade by no less than the percentage tendered by WTO Members having recourse to Annex 5,

Section A of the Agreement on Agriculture. Chinese Taipei agrees to increase the percentages of private trade to 21 per cent in 1998, 28 per cent in 1999, and 35 per cent in 2000.

In-Quota Duty and Mark-up: The in-quota duty shall be 0 per cent (zero) for rice in HS chapter 10. The sum of other fees, charges, and mark-ups on any individual importation shall not exceed NT\$23.26/kg for rice and NT\$25.59/kg for rice products. If the quota is under subscribed after the first announcement, Chinese Taipei will reannounce the allocation within two weeks, reducing the sum of other fees, charges, and mark-ups by NT\$3/kg or greater to ensure that they do not restrict imports, nor price imports above market clearing levels. The process will be repeated if necessary. If the initial tender is over subscribed, it will be allocated on a first come, first served basis.

Terms of Trade: Quota allocation certificates will serve as automatic import licences, in compliance with the Agreement on Import Licensing Procedures and consistent with Article XIII of GATT 1994. All commercial terms of trade, including product specifications, origin, pricing, packaging, etc. will be at the sole determination of the parties engaged in the transaction. Partial shipments against a single allocation will be permitted. Traders may import any product or mixture of products subject to the same quota as noted in Chinese Taipei's schedule. All products imported under the quota will be permitted to be distributed freely within Chinese Taipei without further trade-based restrictions. Allocation certificates will be freely transferable and tradeable, and certificate holders may have certificates reissued to combine or divide allocations.

Application: All applications for allocation of quota quantities will be submitted to the Council of Agriculture (COA). Specific conditions for applying for the first quota allocation for each year will be published in the official journal sixty days in advance of the start of the application period. The application period for initial allocations shall be closed by 30 September of the previous year, unless the timing of accession necessitates a change in schedule for the first year. The application period for reallocations shall be closed by 1 September. COA will grant allocations and publish and notify the names of recipients and allocation amounts within two weeks of the close of the application period.

Associated Fees: Any and all fees, charges, deposits, duties, etc. associated with the allocation process will be made explicit in the advance public notification process, and with the exception of ordinary customs duties and/or other charges as noted in Chinese Taipei's schedule, will be commensurate with the cost of the services rendered. No special performance or bid bond requirements will be instituted.

Allocation:

- (a) Initial distribution of allocations The initial allocation certificates will be issued on a first come, first served basis. Allocations will be established for commercially viable shipping quantities, but a ceiling on the size of any given allocation may be established in advance and published as part of the allocation notification procedures. Allocation certificates will be valid for product arriving between 1 January and 1 September. The date of arrival shall be defined in accordance with Article 5 of the implementing regulations of the Customs Law of Chinese Taipei as currently in place. Upon request and proof of signed contract before 1 September, COA will automatically extend the validity date of the certificate to cover products arriving on or before 31 December.

Reallocation of unused allocations In any year, if the holder of a quota allocation certificate has not contracted for import of the holder's total allocation by 1 September, the unused portion of the allocation will be reallocated on a first come, first served basis. Reallocation certificates will be valid for 90 days.

B. HS LINES SUBJECT TO RICE QUOTA REGIME

Description of Product	Tariff Item Numbers	Other Terms and Conditions
Rice / 1 ST-Annex 5		1
Rice		
--in the husk	10061000

	21069099C	

Note 1: The import quota will be distributed in accordance with the Rice Quota Administration.

Draft Plan on Special Safeguard Regime
in the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu

1. Chinese Taipei's special safeguard measures are structured according to Article 5 of the Agreement on Agriculture, using either volume or price trigger for invoking the measures. The special safeguard will be invoked at the time when the relevant imports reach the volume or price trigger, whichever occurs first. When the imports reach the price and volume trigger levels at the same time, the additional duty to be imposed will be the higher of the duty calculated on the basis set out below. The implementation of special safeguard measures will be from the date of its announcement to the end of the year in which the announcement is made. The level of additional duty will be adjusted in conjunction with the annual adjustment in the out-quota rates.

2. Items applied special safeguards (subject to further multiple negotiations):

Chinese Taipei intends to apply the special safeguard mechanism to the following items whose proposed liberalization measures are tariff based conversion: peanuts, oriental pears, sugar, garlic bulbs, betel nuts, meat of fowls, liquid milk, animal offals, red beans, dried shiitake, shaddock, persimmon, dried day lilies and pork belly.

3. Trigger level and duty calculation:

(b) Trigger volume

- (i) Trigger level will be set according to Article 5, paragraph 4 of the Agreement on Agriculture.
- (ii) Additional duty to be imposed: one-third of the out-quota rate added in effect.

(c) Trigger price

(i) Trigger level

- The trigger price will be the average of c.i.f. prices in the years 1990-1992. As there is no import record for the products concerned, the c.i.f. prices are determined in the same manner as that for the external prices for the purposes of determining tariff equivalent under the tariffication methodology.
- Additional duty will be levied at any time the price difference is greater than 10 per cent of the trigger price.

(ii) Additional duty to be imposed: Additional duty is to be calculated according to Article 5, paragraphs 5(b), (c), (d) and (e).

TABLE 1. LIST OF ITEM APPLIED SPECIAL SAFEGUARD BY CHINESE TAIPEI

Tariff Item Number	Description of Products
02031910A	Pork belly(including spare ribs), boneless, whether or not cut, fresh or chilled
02031990A	Pork belly(including spare ribs), with bone in, whether or not cut, fresh or chilled
02032910A	Pork belly(including spare ribs), boneless, whether or not cut, frozen
02032990A	Pork belly(including spare ribs), with bone in, whether or not cut, frozen
02063000B	Hocks, feet, and skirt of swine, fresh or chilled
02064990B	Hocks, feet, and skirt of swine, frozen
02071010	Meat of chicken (including capon), not cut in pieces, fresh or chilled
02072100	Meat of chicken (including capon), not cut in pieces, frozen
02073910A	Drum sticks and wings (including legs and leg quarters) of chicken (including capon), fresh or chilled
02073910B	Other meat of chicken (including capon), cut in pieces, fresh or chilled
02073959C	Other poultry offals, fresh or chilled
02074110A	Drum sticks and wings (including legs and leg quarters) of chicken (including capon), frozen
02074110B	Other meat of chicken (including capon), cut in pieces, frozen
02074120C	Other offals of fowls, other than livers, frozen
02074220B	Other offals of turkeys, other than livers, frozen
02074312B	Other offals of ducks, other than livers, frozen
02074322B	Other offals of geese, other than livers, frozen
02074322C	Offals of guinea fowls, other than livers, frozen
02089000C	Edible poultry offals, fresh, chilled or frozen (other than edible offals of heading No.02.07)
02089000E	Other edible meat offals, fresh, chilled, or frozen (other than edible offals of poultry and of heading No.02.06)

Tariff Item Number	Description of Products
02109090A	Drum sticks and wings (including legs and leg quarters) of chicken (including capon) and flours or meals thereof, salted, in brine, dried or smoked
02109090B	Other cuts of chicken (including capon), salted, in brine, dried or smoked
02109090D	Other edible poultry offals (other than poultry livers), including flours and meals thereof, salted, in brine, dried or smoked
04011000A	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, not exceeding 1%
04011000B	Longlife milk (excluding milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight,
04012000A	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and exceeding 1% but not exceeding 6% unsweetened, of a fat content, by weight
04012000B	Longlife milk (excluding milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 1% but not exceeding 6%
04013000A	Fresh milk (excluding raw milk and milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 6%
04013000B	Longlife milk (excluding milk of goat and sheep), not concentrated and unsweetened, of a fat content, by weight, exceeding 6%
04029910A	Fresh milk, containing added sugar or other sweetening matter
04029920	Milk, evaporated or sterilized, containing added sugar or other sweetening matter
04029990A	Other milk, containing added sugar or other sweetening matter
04039090C	Other buttermilk, whether or not containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa
04039090F	Other flavoured, modified, or fermented milk (including kephir), whether or not containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa
04039090H	Other cream, whether or not containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa
04039090I	Curdled milk, whether or not containing added sugar or other sweetening matter or flavoured or containing added fruit, nuts or cocoa

Tariff Item Number	Description of Products
05040020A	Guts (including intestines and rectum) and stomach of swine, whole and pieces thereof
05040020B	Guts, bladders and stomachs of poultry, whole and pieces thereof
07032000A	Garlic bulbs, for planting
07032000B	Other garlic, fresh or chilled
07102900A	Frozen red beans (incl. Adzuki bean, all varieties, and red long bean)
07123030	Shiitake (forest mushroom), dried
07129090A	Dried garlic bulb, whole, cut, sliced, broken or in powder
07129090B	Day lily, dried
07133200	Dried red beans (<i>Phaseolus</i> or <i>Vigna angularis</i>), (incl. adzuki bean, all varieties and red long bean)
08029090A	Areca (betel) nuts, fresh or dried
08059000A	Shaddock, fresh or dried
08082010B	Other pear, fresh
08109090C	Persimmons, fresh
11061000A	Red bean (incl. Adzuki bean, all varieties, and red long bean) flour and meal

Tariff Item Number	Description of Products
12021000	Ground-nuts, in shell
12022000	Ground-nuts, shelled, whether or not broken
12089010A	Flours and meals of ground-nuts, edible
12089020A	Flours and meals of ground-nuts, inedible
15081000	Crude ground-nut (peanut) oil
15089000	Refined ground-nut (peanut) oil and its fractions
16023100B	Prepared or preserved meat offal of turkeys
16023910A	Prepared or preserved drum sticks and wings (including legs and leg quarters) of chicken (including capon)
16023910B	Other prepared or preserved meat of chicken (including capon)
16023910D	Other prepared or preserved meat offal of chicken (including capon)
